Sistem profila TEHNOMARKET TMSL čini grupa aluminijumskih profila sa termičkim prekidom projektovanih za izradu kliznih vrata i prozora.

Svi profili ovog sistema su dobijeni postupkom EKSTRUZIJE u pogonima "TEHNOMARKET"-a. Kao sirovina za izradu koriste se legure po AA standardu 6063 i 6060 (DIN standard AlMgSiO.5). Spoljašnji i unutrašnji profil spojeni su međusobno poliamidnim trakama (PA 6.6, sa 25% staklenih vlakana)

U zavisnosti od izbora okova i pribora u sistemu TEHNOMARKET TMSL nalazimo kliznu i podiznokliznu varijantu vrata i prozora.

Osim što su modernijeg dizajna, klizna vrata i prozori imaju prednost u odnosu na klasične okretne prozora/vrata jer ne zauzimaju prostor prilikom otvaranja. Imaju dobru zvučnu i termičku izolaciju.

Zaptivanje između rama i krila obezbeđuju četkice sa membranom (za klizna krila) ili specijalna EPDM zaptivka (za podiznoklizna krila). Sa širinom rama 106 mm i širinom krila 45 mm sistem TEHNOMARKET TMSL se ubraja u manje gabaritne u odnosu na konkurente. Preklop krila i rama je 8,6 mm. Bravljenje je moguće u više tačaka.

Ovaj sistem je dizajniran i projektovan da prihvati ispune debljine od 25 do 36 mm. Površinska obrada profila može biti elektrolitička anodna oksidacija (eloksaža) u skladu sa standardom JUS C.T7.228 i korozivnom otpornošću u skladu sa standardom JUS C.T7.231, ili elektrostatska pulverizacija (plastifikacija), prema RAL ton karti

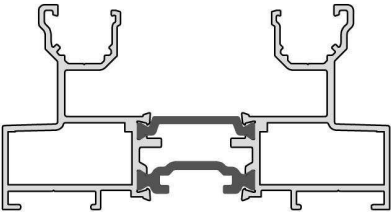

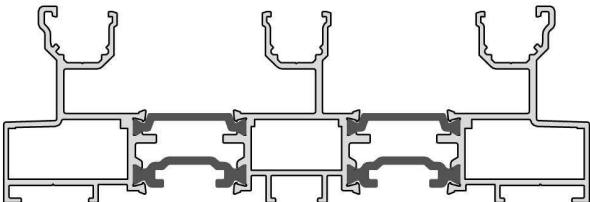

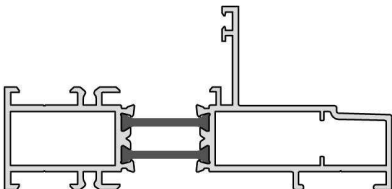

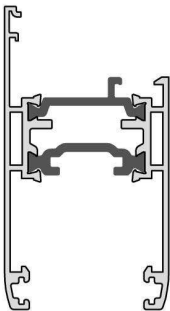

System TEHNOMARKET TMSL

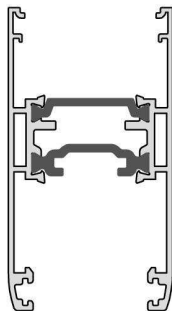

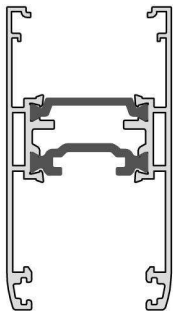

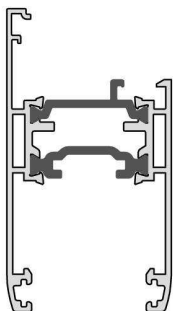

It is a completed set of thermally insulated aluminium profiles and accessories needed for Sliding Doors and Windows production. It is opened in one plane, so less space will be taken up. It is modern, elegant with a possibility to mount large screens.

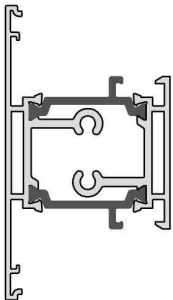

Polyamide strips Pa 6.6 with minimum 25 % of glass fibers perform thermal break. Extruded profiles are of AA6060 or AA6063 Primary Aluminium alloy with minimal Tensile strength $\sigma=220 \text{ N/mm}^2$

System relevant information:

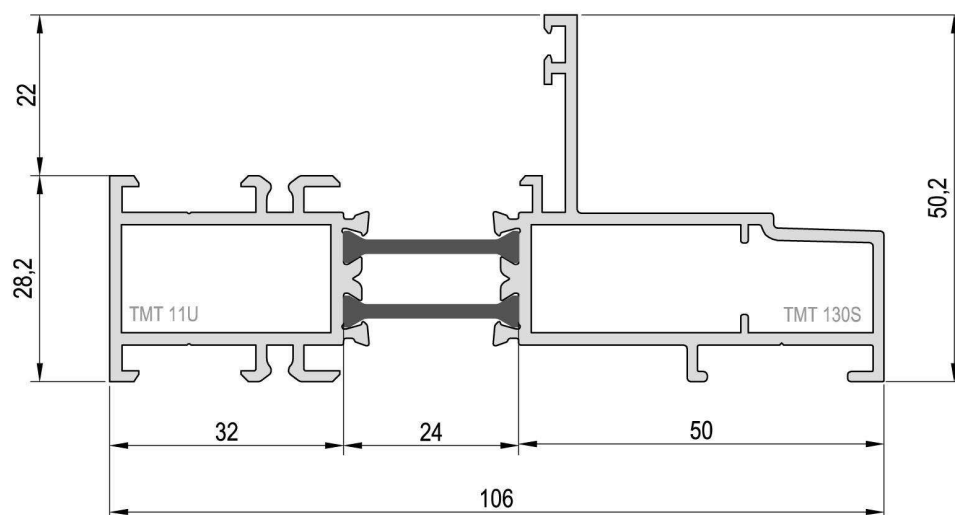

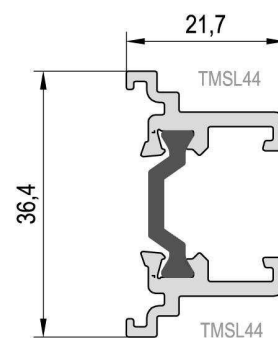

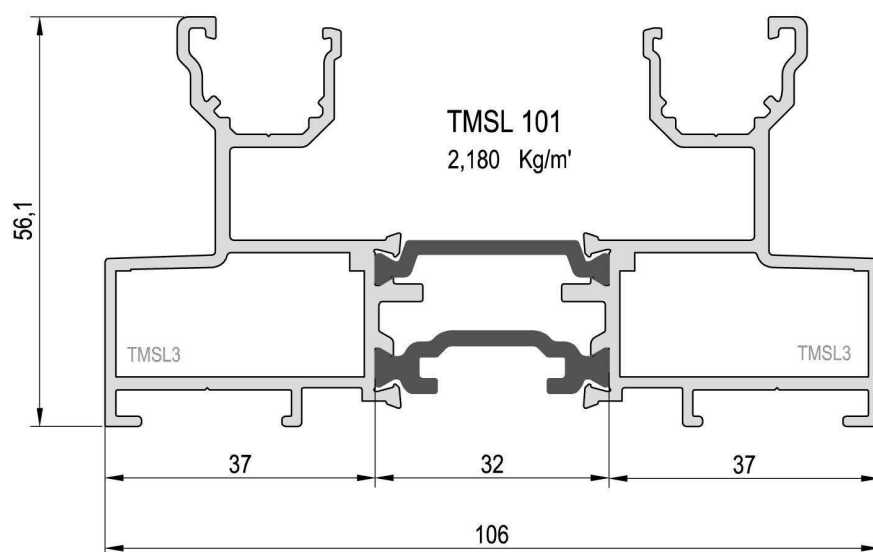

- SLIDING Aluminium System for Windows and Doors.
- Glazing depth: from 25 to 36 mm
- Profiles overlap: 8.6 mm
- Sealing : By Brushes (slide) and Special shape gaskets (lift&slide)
- Latching : Simple or/and multipoints.
- Hardware: SLIDING and LIFT AND SLIDE
- Dimensions: Fixed frame of 106 mm depth, Sashes of 45 mm.
